

MEGALOMANIA

SHORT BIOGRAPHY

Megalomania is a five-piece thrash/death metal band from Malmö, Sweden, combining fast, riff-driven old-school thrash with influences from punk, Motörhead, melodic death metal and early Meshuggah.

Fronted by Emil Augustsson, formerly of Wulfgar, the band features a vocalist who writes all lyrics and vocal arrangements, moving between aggressive growls, piercing screams and powerful clean singing. Lead guitarist Kevin Linden adds fast, technically demanding solos to the band's tightly driven sound.

Following their live debut at Malmö's NGBG Festival, Megalomania are entering the studio in November 2026, aiming to release new music in spring 2027.
